BUILDING ON OUR STRONG ESG PROGRESS

OUR KEY COMMITMENTS

In the
process
to be a
B Corp

Certified

Corporation
PENDING

Environmental

Enhance environmental efficiency

Social

Community

Expand the activities with
Vapza's Community and
suppliers

People

Empowering our people
We are creating a safe,
inclusive and dynamic
culture, where our people
can thrive and grow

Governance

Focus on transparency, innovation and
corporate communication.

BUILDING ON OUR STRONG ESG PROGRESS

OUR INITIATIVES

E

- Sustainable ingredients
Reduce, reuse and recycle our waste:
achieved Zero Landfill in 2022.
- Fostering innovative solutions in packaging
- Awareness programs for employees, suppliers and local Community of our plant.

S

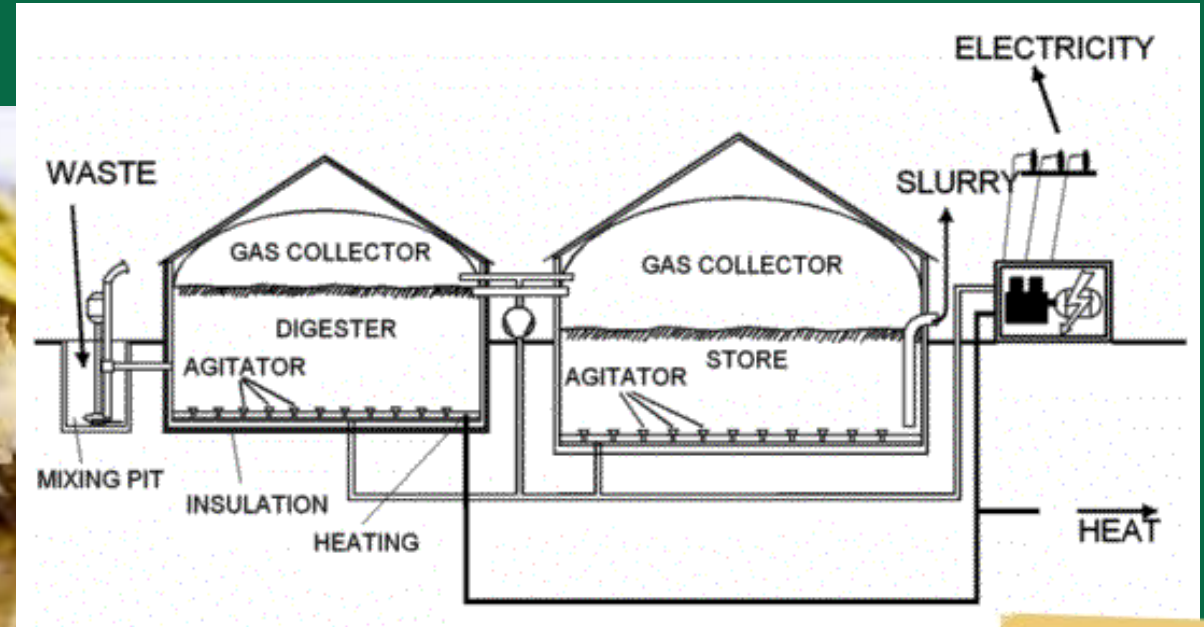

- Promote consumers' wellbeing
- Access to healthcare
- Healthy and safe workplace
- Diversity
- Employment rights
- Awareness actions in local schools
- Incentive to sports
- Family farming

G

- 70% female leadership positions
- Ethics in business
- Transparent disclosure of ESG criteria
- Implications of business strategy on social and sustainability issues
- Whistle-blowing policies

BIODIGESTER

Organic waste (food peelings, small pieces etc.) are sent to a biodigester which converts in electricity for 120 homes.

RECYCLING OUR WASTE

SUSTAINABLE

Plastics are co-processed and returns as trash cans.
